

Rules and Regulations 2019

The following is a full listing of all current rules and regulations governing the submission of a film (hereafter called »the film«) to the 33 Braunschweig International Film Festival organized by the non-profit association Internationales filmfest Braunschweig e.V. (hereafter called »the festival«).

The person submitting the film (hereafter called the »submitter«) acknowledges that he or she has obtained consent from any and all owners, creators, writers, producers and/or other authorized representatives of the film and understands that by submitting the film to the festival he or she confirms that he or she has read and agreed to all rules and regulations set forth below:

I. General Rules and Regulations

§ 1 Runtime and genre

For short films a runtime of **less than 15 minutes** and for all feature films or documentaries a running time of **at least 70 minutes** is required. Submission is open to all film genres and no limitations are set on content.

§ 2 General requirements

The film must not have been theatrically released, broadcasted on television in Germany or be available to purchase as DVD, BluRay or stream and must be **completed no earlier than January 1, 2018**. German premieres and films from the year 2019 will be first choice.

§ 3 Submission

Submitters are highly encouraged to use the submission service supplied by the festival's homepage. Other platforms will be available as well. To finalize the film's submission the submitter must ensure that the festival has received both a **completely filled-in online entry form as well as a working screener with German or English subtitles** if the film's language is not German. A completely filled-in online form may be either the festival's own submission form as well as any other form available on any platform selected by the festival. It is the submitter's sole responsibility that all the required information is included as requested by these rules and regulations. Both an incomplete submission as well as a non-working screener may lead to the disqualification of the submitted film.

§ 4 Additional required information:

- synopsis/summary (500 characters) which may be used in the official catalogue plus any production notes and other festival screenings (if any)
- Director's filmography
- a digital head shot of the director
- at least three film stills, suitable for printing (data with 300 dpi with a size of at least 8 x 10 cm. Webadjusted data is not suitable.)

§ 5 Screener

The submitter provides at least one screener - either online or as DVD (then 3 DVDs) - to the festival. The festival may hand the screeners to a third party for organizational or programming reasons. By submitting the film the submitter permits the festival to do so. To submit the film the submitter has to provide to the festival a screener no later than 14 days after submitting the film.

§ 6 Language, subtitling

The film is required to have preferably German subtitles if the original language is not German. English subtitles will also be accepted. The festival may produce German subtitles for projection copies at the festival's expense, especially in the case of films selected for the competition. In order to produce the subtitle copy for the festival screening the festival has the permission to copy the film file and to add subtitles. The submitter is not entitled to receive the copy. However, both parties may negotiate the hand over. If neither the submitter nor any of the distribution right's owners voice an interest in obtaining the copy until two weeks after the festival the copy will be destroyed.

§ 7 Exhibition format

The festival accepts digital video (DCP, DVD, ProRes, BluRay disc) and 35 mm. However, DCP is preferred.

§ 8 Projection copy

The film's projection copy must arrive **in Braunschweig by November 1, 2019** and will remain in Braunschweig until the end of the festival (November 25, 2019). The transport cost for the projection copy is assumed by the submitter. The cost for returning the projection copy is assumed by the festival. The projection copy's transport to Braunschweig occurs at the submitter's own risk. The projection copy is insured at the copy's value while in Braunschweig as well as for the return transport after the festival. Damage claims must be submitted no later than 14 days after return. In case of damage the material costs for the copy will be refunded after presentation of the bill and at the value in the land of origin. A refund based on non-material value is excluded.

§ 9 Additional material

The submitter will provide the festival with sufficient PR material (pictures, posters, press kits etc.). The transport cost for advertising and press material is assumed by the contributor.

§ 10 Participation notification

If you do not receive a response by October 8, 2019 your film has not been selected for this year's festival. Due to the high number of annual submissions we may not have the resources to inform every submitter.

§ 11 Return of DVDs

Preview material can only be returned if a sufficiently prepaid envelope valid for German postage with a return address is enclosed.
